

Announcing YorSurv

YorSurv for onsite surveys:

- Replaces spreadsheets, digital photos and hand written notes
- Complete surveys on an iPad
- Download work package and complete on site

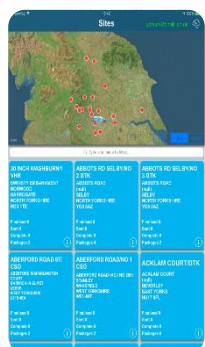

This is the splashscreen for the app – put onto an iPad?

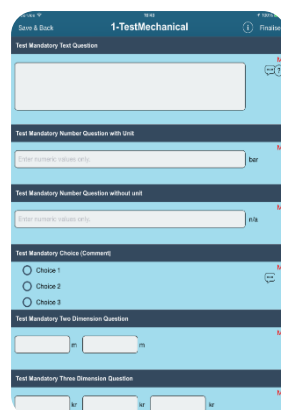

1. YorSurv homepage – showing the Partner and Yorkshire Water areas. This system is for us all, working together in a collaborative way and sharing information

2. Each Partner has a homepage which details their Contracts, Sites and Survey Packages. Surveys can then be planned and carried out within this framework.

3. Survey packages are assigned to a user who then downloads them into their tablet. These are then displayed as shown, detailing the scope of their current survey workload.

4. Surveys are displayed as shown, with a range of question types allowing the maximum flexibility for the surveying team.
