

# Unlock Your Potential: CoPilot Readiness Assessment Now Available!

## Are you Copilot ready?

Thank you for joining our recent webinar on Microsoft CoPilot! As we discussed, the importance of efficient tools for seamless productivity cannot be overstated in today's fast-paced digital landscape. Microsoft CoPilot stands at the forefront of this necessity, offering a transformative solution that streamlines workflows and accelerates your team's capabilities.

Are you ready to revolutionise your workflow? Don't miss this opportunity to take the Italik Microsoft CoPilot Assessment! Gain valuable insights tailored to your organisation's needs, and discover how CoPilot can enhance your efficiency and productivity. With our assessment, you will receive an overall Copilot readiness score based on the organisation's current security posture, user licensing, and usage of Microsoft applications

To book a free consultation now [click here](#), or to find out more contact our sales team.

## What to expect:

- We will gather current security policies and practices through a Zero Trust Questionnaire and connect to your organisation's Microsoft cloud portal for secure Score, licensing, and usage data across Teams, OneDrive, and SharePoint.
- We will generate security, licensing, and optimisation Scores based on various factors including Zero Trust Maturity, Azure Secure, and M365 secure scores. Offers improvement recommendations in security, licensing upgrades, and increasing adoption of Teams, OneDrive, and SharePoint.
- Our team will review findings with you, discussing current Copilot readiness and recommended actions for adoption

## Benefits:

- Gain insight into Microsoft 365 CoPilot and its organizational benefits.
- Assess your organisation's readiness for implementation.
- Identify the most impactful use cases.
- Receive a customised plan and roadmap for implementing Microsoft 365 CoPilot in your organisation.
